Video Assessment Feedback

Based on the interview with Mr Byju V Mathew (Director) along with live video, pictorial evidences and geo-tag verification, Edukraftz Furniture Private Limited is found to be an OEM.

The company is engaged in the manufacturing of single/multi seater student writing pad chair, classroom chairs, metal beds, metal bunk beds and class room desks/ seating using raw materials such as standard wood, pipes, sheet and metal which are termite/corrosion resistant to provide a long life to their products.

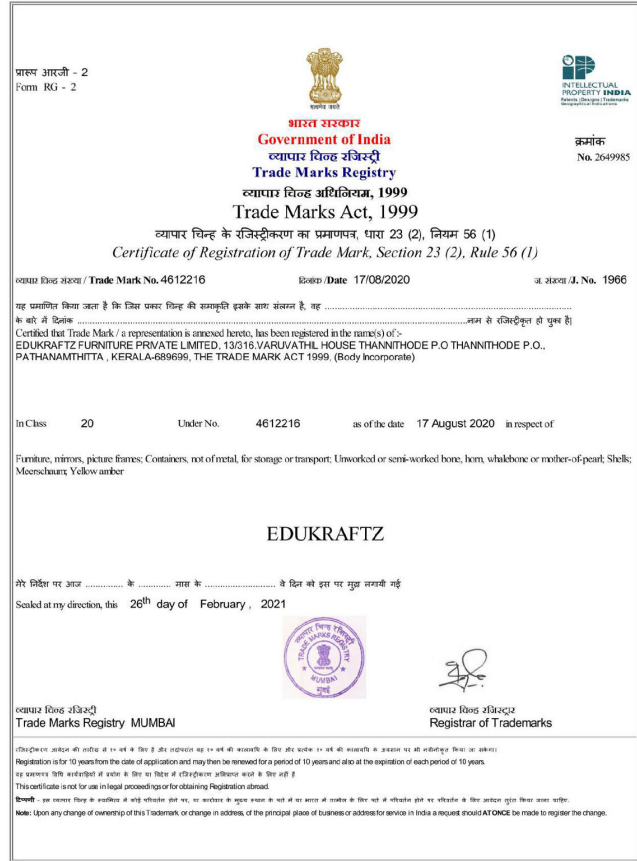

The manufacturing process involves cutting of pipe and wood as per size, bending of pipes, welding for structure followed by applying primer and paint. All the necessary machines to manufacture the desired products were evidenced during the assessment. Visual inspection is done to check for scratches and damages before final dispatch.

The company should install fire extinguishers at the manufacturing site for the safety of workers and should apply work instructions at suitable places for better efficiency of the workers.
